IDENTIFIERS *Michigan (Detroit); Project Head Start

ABSTRACT

This report of the Detroit Public Schools compiles data analysis of prekindergarten children's entry level skills, a 1-month follow-up assessment, and an end-of-the-year skills evaluation. The report contains information on the growth and development of 3- and 4-year-old prekindergarten students in the Michigan School Readiness Program and Head Start/Title I students within 4 learning domains: social/emotional development; physical development; health, safety, and nutrition; and cognitive development. Participating in the assessments were an average of 6,513 students in the 3 assessment periods for the 2001-2002 school year. Findings revealed that at least 50 percent of students were rated by their teachers as demonstrating the highest proficiency levels in all noncognitive domains. Students made the greatest growth in the physical development domain (fine motor skills). The least growth was shown in the cognitive development domain of shapes and numerals, with the proficiency level indicating a loss of about 28 percent for the 2001-2002 school year. Findings suggest a need for increased emphasis on developing cognitive skills, including matching and identifying color, shapes/numerals, and letters. (KB)

Detroit Public Schools
Prekindergarten District Summary Report
2001-2002 School Year

A Condensed Format

Prepared by:
Joyce A. Washington, Ed.D., Evaluator
Office of Research, Evaluation and Assessment
Department of Curriculum Development and Related Programs
Division of Information Services

The District Summary Report for the 2001-2002 school year is a compilation of data analyses that consist of Prekindergarten entry level skills, a one month follow-up assessment, and an end of the year skills evaluation. This report provides information on the growth and development of three and four year old Prekindergarten and Head Start students within four domains of learning. Each assessment serves as an indicator of curricular and instructional effectiveness that teachers, parents, and administrators can use to acquire directions of focus needed to insure that the readiness skills required for academic success in higher grade levels are attained. The information gathered is also necessary for reporting to various local, state, and federal agencies.

During the 2001-2002 school year, students were observed and evaluated by the classroom teacher. A fifty-eight item observational checklist was used to record ratings. Students were assessed in four learning domains that include Social and Emotional Development, Physical Development (Gross Motor Skills and Fine Motor Skills), Health, Safety, and Nutrition, and Cognitive Development. For items 1-46, observations are recorded as "Regularly," "Sometimes, or "Not Yet." The remaining items (47 to 58) are assessed in levels of competency ranges.

Methodology

For the initial assessment, all in-coming students enrolled in the District's Head Start/Title I classes and the Michigan School Readiness Program (MSRP) were evaluated from October 2, 2001 to October 11, 2001. This initial marking period is considered baseline data. A comparison of these data with the final assessment allowed the District to measure gains in skill levels throughout the school year.

The one month follow-up evaluation occurred between November 19, 2001 and December 2, 2001. This evaluation allowed for the inclusion of students enrolled after the initial assessment.

A third assessment occurred between April 2, 2002 and April 17, 2002. The final assessment allowed for gains in academic growth and behavioral skills to be determined from the time of the initial assessment to the final.

Students were observed and evaluated by the classroom teacher for each marking period using the same fifty-eight item observational checklist. Levels of proficiency were rated for four domains of learning that include Social and Emotional Development, Physical Development (Gross Motor Skills and Fine Motor Skills), Health, Safety and Nutrition, and Cognitive Development. Observations of growth and development for each domain are measured as "Regularly," "Sometimes," or "Not Yet" for items 1-46. The remaining items (47 to 58) are assessed in competency ranges.

All observations were recorded on computer scan sheets that were preprinted with the required student information. Blank scan sheets were provided for new students and those not formerly registered in the local school. After marking, the scan sheets were returned to the central office for processing. The data collected from the scan sheets were stored in the District's Student Information System AS400 database. From the information collected, progress reports were generated for each marking period. Teachers received two personalized progress reports for each student, a color copy that is distributed to parents during conferences and a plain white copy is retained in student record folders.

Analysis of Data

During the 2001-2002 school year, an average of greater than sixty-five hundred (n=6,513) students were included in the assessments for the three marking periods. The total number of students reflected in Table 1 indicates the number of successfully processed scan sheets. See Table 1.

Table 1

Prekindergarten Student Population Assessed During the 2001-2002 School Year

Marking Period	Total Number of Students
First	6,256
Second	6,700
Third	6,582
Average	6,512*

*The average number of students is rounded to the nearest whole number.

The learning domains and the subcategories assessed throughout the school year follow. There are four major learning domains, two categories of the Physical Development domain, and four divisions of the Cognitive Development domain. Item numbers, as they appear on the scan sheets are in parentheses.

Learning Domains Assessed

- I.** Social/Emotional Development (items 1-7)
- II.** Physical Development
 - ii.** Gross Motor Skills (items 8-15)
 - iii.** Fine Motor Skills (items 16-23)
- III.** Health, Safety, and Nutrition (items 24-26)
- IV.** Cognitive Development
 - ii.** General (items 27-46)
 - iii.** Colors (items 47-49)
 - iv.** Shapes and Numerals (items 50-55)
 - v.** Letters (items 56-58)

Marking Period 1 (2001-2002)

For the first marking period, greater than fifty percent of students assessed were rated in the highest categories in the domains listed below. Because each domain contains several rated items, the overall status of students within a domain is presented as an average.

- Social/Emotional Development
- Physical Development (Gross Motor Skills)
- Health, Safety, and Nutrition, and
- Cognitive Development (Letters)

Of the 6,256 students observed during the first marking period, an overall average of 59.85% (n=3,744) were rated "Regularly" for Social/Emotional Development.

An average of 4,150 students or 66.34% was rated as "Regularly" demonstrating observed behaviors in Physical Development (Gross Motor Skills).

For Health, Safety, and Nutrition, an overall average of 77.94% (n=4,876) received a rating of "Regularly."

An average of 62.32% (n=3,899) was rated as being able to "Match," "Point to," and "Name" 10+ letters (the highest level of proficiency) for Cognitive Development (Letters).

In the remaining areas of learning, less than fifty percent of students received ratings in the highest categories.

For Physical Development (Fine Motor Skills), 48.52% (n=3,036) of 6,256 students were rated "Regularly."

For the Cognitive Development domain (items 27-46), 48.31% (n=3,022) were rated "Regularly."

Less than twenty percent (19.40%, n=1,214) of assessed Prekindergarten students were rated as being able to "Match," "Point-to," or "Name" 6+ colors for Cognitive Development (Colors).

For Cognitive Development (Shapes/Numerals), 37.63% (n=2,354) of students were rated as being able to "Match," "Point-to," and "Name" 4+ shapes and numerals, the highest category. See Table 2.

Marking Period 2 (2001-2002)

For the second marking period during the 2001-2002 school year, an overall average of greater than fifty percent of all students assessed received the highest proficiency ratings in the areas that follow.

- Social/Emotional Development
- Physical Development (Gross Motor Skills)
- Physical Development (Fine Motor Skills)
- Health, Safety, and Nutrition, and
- Cognitive Development (items 27-46)

An overall average of 71.61% (n=4,798) of 6,700 students was rated "Regularly" for behaviors observed in the Social/Emotional Development domain.

For Physical Development (Gross Motor Skills), an average of 78.93% (n=5,288) students received a rating of "Regularly."

Greater than sixty-five percent (65.98%, n=4,420) of students observed were rated "Regularly" in the domain of Physical Development (Fine Motor Skills).

For Health, Safety, and Nutrition, 5,842 (87.19%) of 6,700 students were rated "Regularly."

For Cognitive Development (items 27-46), greater than sixty percent (63.79%, n=4,274) students received a rating of "Regularly."

For the following domains of learning, less than fifty percent of students assessed during the 2001-2002 school year received ratings in the highest categories.

For Cognitive Development (Colors), less than ten percent (7.78%, n=521) of students were rated in the highest category (observed as being able to "Match," "Point to," and "Name" 6+ colors).

In the area of Cognitive Development (Shapes and Numerals), less than twenty percent (18.23%, n=1,222) of students were rated at the highest proficiency level (observed as being able to "Match," "Point-to," and "Name" 4+ shapes and numerals).

For Cognitive Development (Letters), less than fifty percent (41.75%, n=2,797) of 6,700 students were rated as being able to "Match", "Point-to", and "Name" 10+ letters (highest category). See Table 3.

Marking Period 3 (2001-2002)

For Marking Period 3, six thousand five hundred eighty-two (n=6,582) Prekindergarten students were observed. Of the total number of students assessed, an overall average of greater than fifty percent received ratings in the highest proficiency categories for the domains of learning listed below.

- Social/Emotional Development
- Physical Development (Gross Motor Skills)
- Physical Development (Fine Motor Skills)
- Health, Safety, and Nutrition, and
- Cognitive Development (items 27-46)

For Social/Emotional Development, 5,268 (80.04%) students were rated "Regularly" demonstrating the observed behaviors.

For the domain of Physical Development (Gross Motor Skills), 89.34% (n=5,880) of 6,582 students received a rating of "Regularly."

For Physical Development (Fine Motor Skills), 79.27% (n=5,217) of students were rated as "Regularly" demonstrating the observed skills.

For Health, Safety, and Nutrition, an average of greater than ninety percent of all students (93.71%, n=6,168) were rated "Regularly."

For Cognitive Development (items 27-46), greater than seventy-five percent of observed students (76.44%, n=5,031) were rated "Regularly."

In the domains of learning domains that follow, less than fifty percent of students assessed were rated in the highest competency categories.

For Cognitive Development (Colors), an average of less than four percent (3.97%, n=261) students received a rating in the highest category (being able to "Match", "Point-to", and "Name" 6+ colors).

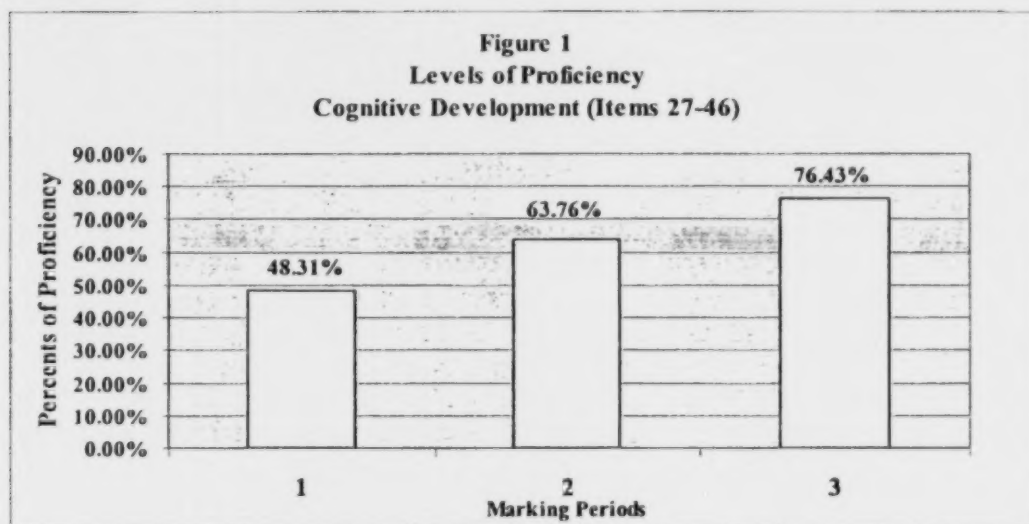

For Cognitive Development (Shapes/Numerals), 9.57% (n=630) students received the highest rating (being able to "Match", "Point-to", and "Name" 4+ shapes and numerals).

For Cognitive Development (Letters), 26.59% (n=1,750) received the highest proficiency rating (being able to "Match", "Point-to", and "Name" 10+ letters). See Table 4.

Conclusion and Recommendations

Overall, most students (fifty percent or greater) were rated as demonstrating the highest proficiency levels in all non-cognitive domains. The same level of performance is demonstrated for Cognitive Development (items 27-46) for the second and third marking periods. See Figure 1.

Students made the greatest growth in the domain of Physical Development (Fine Motor Skills). From Marking Period 1 to Marking Period 3, students showed a gain of 30.75 percentage points. The least growth is shown in the domain of Cognitive Development (Shapes and Numerals), from the first marking period to the final.

In this domain, students show a negative trend. The proficiency level indicate a loss of greater than 28 percent (-28.06%) for the 2001-2002 school year. See Table 5.

In the learning domains of Cognitive Development (Colors), Cognitive Development (Shapes/Numerals), and Cognitive Development (Letters), less than fifty percent of all students assessed for all marking periods were rated in the highest proficiency categories, (with several exceptions). For all sub-categories of Cognitive Development, there is a negative growth trend or a loss in the percents of students being rated in the highest proficiency categories. See Table 5.

The 2001-2002 analysis of Prekindergarten achievement provides a view of the domains of learning in which children are demonstrating high levels of competency and the areas that are in need of additional emphasis. It appears that there is a need for increased emphasis on developing the cognitive skills. Matching and identifying ("Pointing-to" and "Naming") colors, shapes/numerals, and letters are the areas that show minimal competency levels most frequently.

Greater than fifty percent of all Prekindergarten students should receive the highest ratings in all domains of learning on the third marking period assessment.

Table 5
Students Receiving Highest Proficiency Ratings
In All Learning Domains
2001-2002

Domains of Learning	First Marking Total Number of Students Assessed 6,256		Second Marking Total Number of Students Assessed 6,700		Third Marking Total Number of Students Assessed 6,582		Gains and Losses From First to Third Marking
	Percent	N**	Percent	N	Percent	N	Percent

Gross Motor Skills				
Walks	6482	66	5	29
Runs	6399	143	8	32
Jumps	6275	227	38	42
Hops	6043	416	76	47
Throws	5805	862	70	45
Catches	5086	1295	145	56
Kicks	5705	897	79	101
Bounces	5248	1075	204	57
Average	5880.13	872.63	78.13	51.13
Fine Motor Skills				
Demonstrates eye/hand coordination by using puzzles blocks and manipulatives	5869	618	50	45
Holds and manipulates crayons pencils, and brushes	5799	629	62	92
Scribbles	5478	588	80	436
Draws lines	5736	634	121	91
Draws circles	5398	860	223	103
Copies shapes	3889	1802	728	163
Holds and uses scissors	4770	1436	285	91
Manipulates a computer mouse	4801	858	476	447
Average	5217.25	928.13	253.13	183.60
Health, Safety, and Nutrition				
Dresses self	6138	342	42	62
Cares for biological needs	6294	217	40	31
Cares for possessions	6074	411	45	52
Average	6168.90	323.33	42.33	48.33
COGNITIVE DEVELOPMENT				
Responds to own name	6395	147	8	32
States first name	6228	132	78	144
States last name	5390	570	451	171
States full name	5467	545	489	81
States age	5911	403	212	56
Recognizes own first initial in print	5547	482	373	180
Recognizes own first name in print	5639	595	301	47
Recognizes own last name in print	3806	1181	1474	321
Follows directions	4803	1644	74	61
Demonstrates ability to listen to stories, poems, rhymes, or music	5367	1041	93	61
Handles books appropriately	5552	938	52	40
Converses with adults	5424	980	147	31
Converses with other children	5880	584	65	43
Describes pictures, objects, or events in some detail	4368	1516	484	204
Describes pictures, objects, or events in great detail	2779	2083	1518	204
Duplicates a one-attribute pattern with direction	4722	1256	384	220
Duplicates a one-attribute pattern independently	3323	1948	1098	215
Sorts objects with direction	5228	973	182	199
Sorts objects independently	4107	1643	677	155
Counts objects	4884	1277	341	100
Average	5031.00	997.40	428.38	128.28
Cognitive Development (Colors)	0 to 1	2 to 5	6+	Blanks
Matches basic colors	5391	792	183	216
Points to basic colors	5021	1056	277	228
Names basic colors	5086	1108	323	85
Average	5159.33	988.33	261.00	178.33
Cognitive Development (Shapes/Numerals)	0 to 1	2 to 3	4+	Blanks
Matches shapes	5111	967	255	229
Points to shapes	4357	1552	452	221
Names shapes	4057	1834	611	80
Matches numerals	4851	936	546	249
Points to numerals	4021	1403	811	247
Names numerals	4049	1418	1004	113
Average	4407.67	1354.67	629.83	189.83
Cognitive Development (Letters)	0 to 5	6 to 9	10+	Blanks
Matches letters	3890	1238	1215	238
